

8.6. Installation of the i-BOX

The i-BOX is the central control element, to which several control panels can be attached. It should be mounted with the cable connections facing down..

Fig. 34

I-box connections :

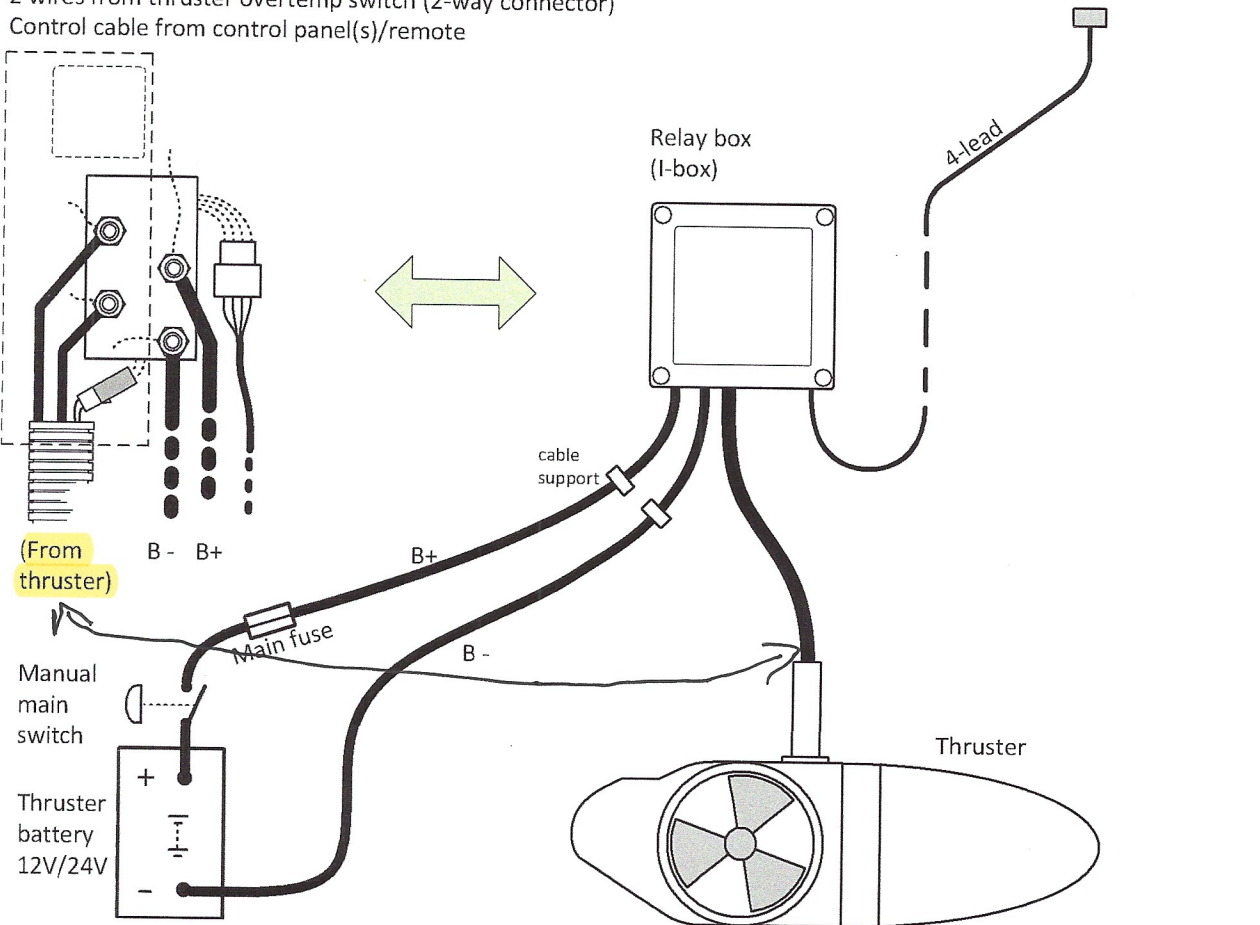

«B+»:Power supply +12/24V from thruster battery/Main switch/Main fuse

«B- »:Power supply neg from thruster battery

2 motor cables from thruster

2 wires from thruster overtemp switch (2-way connector)
